BILL'S TOUR PHOTOS

One of our clients, Bill Shoup, has become an avid photographer after his retirement. When he goes on one of our tours he takes oodles of pictures. Then, back at home, he organizes them into book form on the web site Shutterfly. He now has a great library of these photography books that capture the essence of his trips. We have obtained copies of many of his books and showcase them in our waiting room at the office. When you visit our office take a few minutes to look at some of his books. They are beautiful.

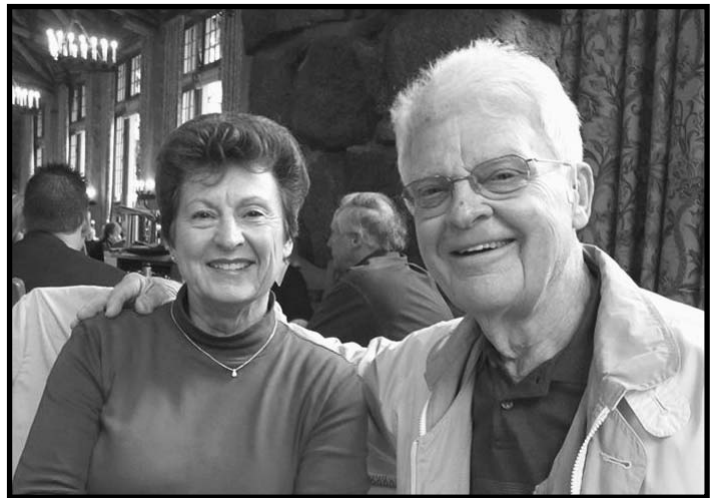

He also uploads many of his best pictures onto the Sun Tours Photo Gallery. If you have been on any tours with Bill, you might want to go to our web site (www.suntoursus.com) and download any pictures that you like. You might even be in some of them.

KARL'S KORNER

It's time to plan your travels for the year and this catalog has some great options for you. We will be going to the Buffalo Roundup in the Black Hills and the Quilt Festival in Houston. We have five fall foliage options—Colorado Aspen Color, Nova Scotia & New England, Branson & the Ozarks, a revised Wisconsin & Michigan, and a new Allegheny Fall Foliage tour.

I hope to see you on another tour or cruise real soon.
Happy Trails,

Karl

FLIGHT INSURANCE GROUNDED

The Charles Perfetto Agency, from whom we have purchased flight insurance for 15 years, is no longer offering this coverage. They didn't know of any other agency offering flight insurance. So we are no longer going to offer this benefit on our tours and

cruises that include flying effective with the tours in this catalog. The good news is that in all these years Sun Tours has never had the occasion to file a claim because this insurance only goes into effect when there are deaths from an airplane crash.
